PROFILE

Hi, my name is Candice Keet and I am an aspiring frontend developer with a passion for creating intuitive, visually appealing user interfaces. My goal is to grow my skills and contribute to innovative projects that shape the future of technology. Outside of coding, I enjoy baking, where precision meets creativity, and hiking, which keeps me grounded and inspired by nature. I also love tackling coding exercises, constantly honing my craft and exploring new challenges to push the boundaries of what I can achieve in the tech world
